HERE'S AN IDEA OF HOW THE ART SESSIONS RUN

YOUR ART WORKSHOP

SESSION ONE PLAY

Work stations will be set up and I do an intro/short demonstration - then it's over to you to have fun and experiment markmaking and adding colour. I'm there to guide anyone who feels stuck. At the end of this we take time to assess & get/give feedback. Also time for questions.

DRYING TIME NEEDED

A break of approx 30mins - 1 hour is required (depending on weather) to allow that first layer to dry. While you go off entertain yourselves for a bit (or for corporate clients - run your next session), I set up for next art session.

SESSION TWO - FINESSE & FINISH

Starting with another short demo, I'll show you ways to add a bit of finesse, select the colours and add the second layer. Then it's over to you to complete your masterpiece. By the end of this session, you'll end up with a complete work that is ready to be put in a standard size frame. NB the artwork won't be completely dry until following day, so care taking it home is required.

CLEAN UP

Leave that to me. I'll take away all the rubbish & leftover materials, leaving the venue as found.
